

Business and Security Compliance Assurance

We deliver continuous compliance & risk management to safeguard your business between audits, build trust, and protect your brand

Gain ongoing compliance

In today's world, risks evolve daily and regulations shift constantly. Compliance assurance can no longer be a point-in-time exercise or a "pass-the-audit" milestone. True protection means being prepared every day. Quantarra transforms compliance from a periodic checkbox exercise into a continuous, real-time capability — strengthening your compliance posture and risk mitigation year-round. With us, compliance isn't just about meeting standards; it's about driving trust, efficiency, resilience across your entire business.

Why Choose Us

Unparalleled industry experience

Our deep industry knowledge ensures a platform that truly understands and addresses the complexities of modern GRC challenges

Comprehensive compliance coverage

From security frameworks like SOC 2, HIPAA, ISO, PCI-DSS, GDPR, ISO/IEC 42001, NIST, Cyfun to industry regulations like NABH, NABL, JCI, SOX, SEBI and beyond, Quantarra supports a wide array of compliance frameworks, including financial reporting integrity, responsible AI and beyond

Adaptive compliance

Stay ahead of changing regulations, and build custom controls that drive operation excellence

Intuitive user experience

Our platform is designed for ease of use, intuitive workflows and seamless integrations ensuring quick adoption across your organization

Rapid value creation

Onboard in 30 min. Cut audit effort by 90%. Reduce costs by more than 50%. Built-in, tamper-proof workflows which connects external auditors

SaaS Platform
